GRDA Develops Freight Pricing Guidance for the Tema–Mpakadan Corridor

August 1, 2026 — Accra

The Strategic Initiatives and Business Development Directorate has developed and issued a Schedule of Fees, Commercial Offers and Disclaimers for the Tema–Mpakadan Railway Corridor, a comprehensive pricing guidance and customer information memorandum designed to support shipping lines, freight forwarders, logistics companies, and cargo owners in evaluating rail as part of their supply chain strategy.

The memorandum sets out indicative freight rates for loaded and empty 20-foot and 40-foot containers moving between Tema and Mpakadan, alongside GRDA's standard commercial offer, service-level commitments, and customer onboarding procedure. It has been approved by the Chief Executive Officer and is now available to guide commercial discussions with prospective freight partners.

Indicative Freight Rates (Tema – Mpakadan, 97km)

Container Type	Indicative Rate
Loaded 40-Foot Container	GH¢ 6,700
Loaded 20-Foot Container	GH¢ 4,162
Empty 40-Foot Container	GH¢ 4,690
Empty 20-Foot Container	GH¢ 2,913

The pricing guidance is accompanied by a customer support package that includes:

- 48 hours free parking at designated rail terminals and 24-hour terminal security
- Reach stackers, power forklifts, and a truck provided at the Tema Railhead and Mpakadan station
- Freight insurance coverage for cargo in transit, subject to policy terms
- A structured onboarding process from initial inquiry through to a signed service agreement or off-take contract

All rates and terms in the memorandum are indicative and commercial-in-confidence, subject to final negotiation, volume commitments, and periodic review to reflect inflation and fuel price movements. The document reinforces GRDA's ambition to position the Tema–Mpakadan corridor as a safer, more reliable, and more cost-effective alternative to road haulage, and forms a key reference as the Directorate advances ongoing engagements with shipping lines, freight forwarders, and logistics partners toward signed off-take agreements.
